

Go, go, go with a Healthy Breakfast.

Fuel to go, go, go.

The most important meal of the day, a healthy breakfast can improve your concentration, give you more energy, and help you perform at your peak. Remember: Always make breakfast a regular part of your day.

If you're pushed for time, or have an early morning game, try these 'foods on the run':

- Fruit
- Low fat savoury muffins
- Reduced fat flavoured milk
- Banana smoothie or other breakfast drinks

And if you're not playing until later, give any of these a go:

- Fruit salad and low fat yoghurt
- High fibre, low sugar cereal with fruit
- Poached eggs or grilled tomato on toast
- Crumpets or muffins with honey
- Reduced fat yoghurt
- Low fat fruit muffins
